

Gold Coast Tamborine Cleaning: Environmental Management Policy

Gold Coast Tamborine Cleaning is committed to minimising our environmental impact while providing high-quality cleaning services. We recognize the importance of protecting the environment and aim to adopt practices that reduce waste, conserve resources, and promote sustainability.

Our Environmental Commitments

1. Eco-Friendly Products

- We strive to use non-toxic, biodegradable, and eco-friendly cleaning products whenever possible.
- All products are selected with client safety and environmental responsibility in mind.

2. Water and Energy Conservation

- We use efficient, low-water pressure cleaning systems to reduce water waste.
- Equipment is selected for energy efficiency and maintained regularly to ensure optimal performance.

3. Waste Minimisation and Disposal

- We avoid unnecessary use of disposable materials.
- All waste, including chemical containers and cleaning byproducts, is disposed of according to local council guidelines and environmental regulations.
- A waste log is maintained for chemicals used and disposal actions taken.

4. Sustainable Work Practices

- Staff are trained in sustainable practices, including product dilution, correct disposal, and spill prevention.
 - We actively seek to reduce travel-related emissions by scheduling jobs efficiently and locally.
-

 Environmental Documentation

We maintain the following logs and records:

- **Chemical usage and disposal register**
- **Product Safety Data Sheets (SDS)**
- **Equipment maintenance schedule**
- **Staff training log in sustainable practices**
